H. Campbell Stuckeman

The event will benefit the West Penn Hospital - Forbes Regional Campus

Your Community Hospital at a Glance:

- Is the only full service hospital in the area serving 350,000 residents of eastern Allegheny and western Westmoreland Counties with a comprehensive range of quality healthcare services from birth to end of life hospice care. Residents have their specialized healthcare needs met in their own back yard in one centralized campus. They need not travel into the city or across multiple locations. Their patient record, history, and test results are centralized in one electronic system and available across the Hospital.
- Is the only hospital within a 15 mile radius providing life saving heart services at the new Ed Dardanell Heart and Vascular Center and family focused services at the new Women's and Infants' Care Center.
- Is Monroeville's largest employer, providing support to more than 1,400 employee households.
- Answers the call for extensive Emergency Room care, treating 43,000 patients in the ER annually, - comparable to Allegheny General Hospital, a facility twice the size of Forbes. The Forbes ER has never turned a patient away due to an inability to pay.
- Provides care to 14,000 inpatients and 165,000 outpatients annually.
- Contributes to the economy of the region by drawing patients and family members to the community who then remain in the area to shop, dine, bank, and for entertainment and other services.
- Continues to meet the increasing demands of people living in a challenged economy. Forbes provided \$14.5 million in uncompensated care to the community in fiscal year 2008, up 33 percent from the year before.
- Is specifically dedicated to and is the largest provider of health care to the underserved in the area by way of its Forbes Family Health Center. Forty percent of the Center's patients are below the poverty level. The Center has never denied care to anyone nor has it ever denied immunization shots to children whether or not their parents had the ability to pay.
