Please contact your unit
managers to register for
a course.

Content: This 2-hour course is designed to increase staff feelings of competency in decision making and effectiveness while responding to a code. Learning objectives for the course include: an introduction to SimMan, application of the WPH Yellow & Blue Alert Policies, a lecture on the team approach to ACLS care, and practice scenario sessions followed by debriefing discussions.

****This program is approved for 2 contact hours through the Pennsylvania State Nurses Association****
